School-Based Therapy Service (Item 6-H)

Mr. Stumbo made the motion and Ms. Gearheart seconded the motion to approve the agreement between Mountain Comprehensive Care Center and Floyd County Schools for provision of School-Based Therapy Services for 2012-2013 School Year.

There was an affirmative vote by all board members present to approve the motion. The motion carried.

KRS 158.440 and 160.290. In the past, mental health services to students may have been limited due to difficulties that families experience with transporting children to appointments at MCCC. Students who had transportation and for whom appointments were scheduled during the school day were absent from school for a day or a portion thereof. Providing therapy services on-site address both issues. Availability of MCCC staff members has also increased awareness of services available to students (and family members) that may have a need for mental health services. The number of sites served is directly related to availability of qualified MCCC therapist. There will be no direct cost to Floyd County Schools associated with this agreement. Therapeutic services will be billed to each child's medical card, insurance, or to any grant monies available at MCCC. Therapists are provided a room in which to work at each school served.

ORDER NO. 17498
