### **Floyd County Schools: *Parents can Access Student Information***

Floyd County School Superintendent Dr. Henry Webb shares information about one way to be more informed as a parent.

Dr. Webb comments, "When everyone is involved with our KIDS, then our KIDS can be even more successful. That's one reason we want our parents to attend our Open House events, schedule parent conferences with teachers and obtain information from Parent Portal from Infinite Campus. Infinite Campus is a secure website you can access through our website and find information about your child's attendance and grades."

Infinite Campus is the database system that Kentucky public schools use for managing student information. Through Parent Portal, you can see your child's grades, attendance, assignments and class schedule. There are also links to use to contact your child's teacher(s).

To use Parent Portal, parents/guardians will need to obtain a GUID number from the school their child attends. This number will allow you to set up your account. There are also IOS and Android apps for Infinite Campus. For the apps, you will need the District ID code which is SQSBDS. The apps will allow you to receive notifications regarding attendance, grades, etc. Students can also obtain their own number and use Infinite Campus also.

Dr. Webb commented, "The board team and I are very proud of the success our KIDS are having on state assessments and we know that our parents play a huge role in making sure our KIDS stay focused. We hope that you will continue to stay informed about your child's progress through teacher conferences, phone conferences, or electronically. Together, we can make sure that the KIDS of Floyd County receive a world-class education and become college, career and future ready."

\*You can access Infinite Campus from our website or
